

Guide for Parents

2. Asia			
ASIA	Date Achieved	Date Achieved	Date Achieved
Count in twos			
Count in fives			
Count in tens			
Know by heart all number bonds to ten			
Recall the doubles of all numbers to at least ten			

Stage 2 - Asia	Examples	Can your child answer these questions?
Know by heart all number bonds to 10	$0+10 = 10$ $1+9 = 10$ $2+8 = 10$ $3+7 = 10$ $4+6 = 10$ $5+5 = 10$ $6+4 = 10$ $7+3 = 10$ $8+2 = 10$ $9+1 = 10$ $10+0 = 10$	<p>What would you add to 7 to get a total of 10?</p> <p>Use number cards from 1 to 9 - can you pair the numbers which make 10?</p> <p>How many pairs of numbers can you remember that make a total of 10?</p>
Recall the doubles of all numbers to at least ten	Double 2 is 4 Double 6 is 12	What is double 4?
Count in twos		<p>How far can you count in twos?</p> <p>What number would follow in this sequence: 6,8,10,12...? How far can you continue the sequence</p> <p>What about this sequence? 18,16,14,...</p> <p>What would come next? Can you get back to 0?</p>
Count in tens		<p>How far can you count in tens?</p> <p>What number would follow in this sequence: 40,60,60, ...? How far can you continue the sequence</p> <p>What about this sequence? 90,80,70,...</p> <p>What would come next? Can you get back to 0?</p>
Count in fives		<p>How far can you count in fives?</p> <p>What number would follow in this sequence: 45,60,65,60, ...? How far can you continue the sequence</p> <p>What about this sequence? 80,75,70,65,...</p> <p>What would come next?</p>
